

# **Please Don't Run Away**

I don't know what he did to you  
To make you this way  
All I know is when I reach for you  
You run away  
I touch you and you run and hide  
And leave your body by my side  
You're suddenly a million miles away

Please don't run away from my loving, girl  
Please don't run away from my loving  
Please don't run away from my loving.

I'll take you to a movie if you want me to  
Give you something else to think about  
Besides me and you  
I wonder what you're frightened of  
I wonder what you think of love  
I wonder what you think I'm gonna do

But please don't run away from my loving, girl  
Please don't run away from my loving  
Please don't run away from my loving.

Well, maybe we should lock ourselves in a little room  
And look each other in the eye for a week or two  
And maybe then you'll realize  
That I am not those other guys  
I don't just want your body,  
I want you.

Please don't run away from my loving, girl  
Please don't run away from my loving  
Please don't run away from my loving.
